Research plus features

Long series in columns, rows and plates—that is the area in which the multichannel pipette is becoming increasingly popular. And it is especially for this environment that we developed the Research plus multichannel pipette, which can be operated easily with one hand. This high-performance 8-channel pipette offers an effective, precise and rapid way to process long series for an entire spectrum of applications.

Offer valid from January 1, 2012 through June 30, 2012.

Eppendorf Multiplicity offer—expires June 30, 2012

For a limited time Eppendorf is able to offer you any 8-channel Eppendorf Research plus pipette with 1 case of ep Dualfilter T.I.P.S. for less than the cost of the pipette! Take advantage of this offer and save up to \$288 if you act before June 30, 2012.
